

Washable Super-Mat®

superior performance delivered by double action scraping and wiping

Removes up to 50% more dirt!

Super-Mat® versus competitive mats

Grams of test soil retained per square metre of mat sample after 500 laboratory controlled test steps by a mechanical foot tracker.

Product Information

Introducing the first ever washable mat to combine fine heat-set fibres with heavy duty fibres to create a dual action Super-Mat®.

Powerful scraping fibres remove heavy, coarse soils and heat set fine fibres catch dusty soils and absorb moisture.

The cost of removing just one kilo of tracked-in dirt from a building can be €1200 or more. The Super-Mat® will not only reduce this cost but will also protect your investment in carpeting, hardwood and wax finished floors.
